

CHAD MC ADAMS

909.913.0280 | mcadamschad@outlook.com | Southern California

Reliable lube technician who is interested in becoming a technician. Has done personal projects as well as replaced tires and changed oil professionally.

Projects

- **Replaced Car Antenna:** Replaced broken antenna for a 2010 Kia Forte Koup.
- **Replaced Car Radio:** Replaced stock radio on a 2008 Chevrolet Aveo Hatchback.
- **Replaced Spark Plugs:** Replaced spark plugs for a 2010 Kia Forte Koup and 2006 Suzuki Grand Vitara.
- **Replaced Evap Canister Purge Valve:** Replaced Canister Purge Valve with broken plastic on a 2006 Suzuki Grand Vitara.

Education

Associates of Science, Mathematics, San Bernardino Valley College

2017

Professional Experience

Tire Technician, Discount Tire Center, Moreno Valley, San Bernardino, Corona 02/2021 - Present
Trained at the Moreno Valley location for two days before starting at the San Bernardino location. Had to learn quickly from the manager and tire technicians from other locations in order to finish work orders in a professional and timely manner. Repaired tires, changed tires, and changed oil. Added washer fluid if needed. Swept shop when dirty. Took out trash and old tires. Helped new tire technicians learn. Switched to Corona location. Has done alignments with help. Learned how to drive stick shift vehicles.

Tire Technician, America's Tire, Colton 05/2022 - 07/2022
Trained for two weeks via live video conference. Learned more about tires and wheels. Learned good practices for mounting tires and jacking up vehicles. Repaired and replaced tires. Cleaned as needed.

Shock Absorber Assembly Line, Walker Evans Racing 09/2020 - 02/2021
Assembled shock absorbers for various vehicles. Started assembling the bodies for the shock absorbers. Worked assembling the pistons for the shock absorbers when needed. Cleaned and always tried to find something to help with when department was not busy. Added oil and air to shock absorbers right before they were cleaned. Tested if the shock absorbers were leaking and still worked correctly before shipping.

Permit Coordinator, Earthquake Bracing Incorporated 03/2017 -09/2020
Generated buy-in for home retrofit services by educating customers on program benefits as the first point-of-contact. Earthquake retrofits and went under raised foundation houses and attached plates to the foundation to prevent the house from sliding off of the foundation in the event of an earthquake. Worked well enough to get a raise and receive more responsibilities. Take clear before and after pictures of the house and crawlspace for the Earthquake Brace + Bolt program. Pulling permits to retrofit houses.
